Marietta, GA

EDUCATION

- **Kennesaw State University** Marietta, GA
 - *Bachelor of Science in Computer Science; Concentration in AI* *Expected May 2026*
 - Relevant Coursework: Machine Learning, Natural Language Processing, Algorithm Analysis, Software Engineering

TECHNICAL SKILLS

- **Languages:** Python, Java, TypeScript, SQL
- **AI & Data Science:** LangChain, LangGraph, OpenAI API, PyTorch, NumPy, Pandas, ChromaDB
- **Web & Infrastructure:** Next.js, React, TailwindCSS, Docker, Kafka, PostgreSQL, Prisma, Git
- **Certifications:** Google Data Analytics, Microsoft Office Suite

PROJECTS

- **Agentic AI Stack for E-Commerce** | *Python, LangGraph, Kafka, Docker* Sept 2025
 - Architected a microservices-based multi-agent system to automate customer support, ingesting messages via **Kafka** topics prioritized by urgency.
 - Implemented **LangGraph** agents that consume topics to address requests, appending actions to a shared State variable communicated to an Orchestrator agent.
 - Achieved a **150% accuracy improvement** over single-agent baselines by utilizing specialized classification and orchestration agents.
 - Deployed backend on Render and frontend on Vercel with a Confluent Cloud Kafka cluster; utilized **Docker** for containerization and **Chroma** for vector storage.
- **The Watch Trading Post** | *Next.js 14, TypeScript, PostgreSQL, Stripe, OpenAI* Current
 - Developed a full-stack e-commerce platform for a high-volume watch retailer using **Next.js 14** and **TypeScript**, handling high-value inventory.
 - Integrated an **OpenAI**-powered chatbot to provide real-time inventory recommendations and answer user queries based on current stock.
 - Built a comprehensive Admin Dashboard using **Prisma ORM** for inventory management, cross-listing, and order tracking.
 - Implemented secure payments via **Stripe** and automated transactional emails with SendGrid.
- **Interactive Touchscreen Demo Platform (Southwire)** | *React, TypeScript, Canva* Dec 2024
 - Developed a custom, large-format touchscreen application in **React** and **TypeScript** for a major industrial client's high-visibility interactive demo.
 - Architected a responsive interface featuring six distinct multimedia content icons, ensuring seamless video playback upon interaction.
- **Mom and Pop Pizza Website** | *Java, JavaFX, Figma, SCRUM* Sept 2023
 - Served as Team Lead for a semester-long Software Engineering simulation, guiding the team through the full SDLC including requirements engineering and architecture design.
 - Developed a Proof of Concept (POC) desktop application featuring customer order placement and an administrative portal.

EXPERIENCE

- **One Talent Productions** Carrollton, GA
 - *Multimedia Producer* *Aug 2023 - Present*
 - Edit and produce high-quality multimedia content utilizing Adobe Premiere Pro, After Effects, Photoshop, and Lightroom.
 - Collaborate with notable clients such as Southwire to meet creative specifications and deliver projects on strict timelines.
